“Bringing ideas to life”

Taha Yassine Ayari

Project leader, AI Mental
Healthcare.

AI Mental Healthcare

Artificial intelligence for Alzheimer's disease prediction and Dementia classification. We created a prototype.

A tool that assists neurologists and doctors to make better decisions. We work with a team of experts neurologist in the country.

A tool that can make the life better for patients with dementia and that allow them to keep their autonomy and dignity as long as possible.

Every three seconds, a person in this world develop dementia.

Ayari taha yassine

When I started with edgeryders, The project was an idea. But with edgeryders I ve got the opportunity to develop business skills so that I was able to move it to the next stage.

OCI lab is an opportunity where we can meet awesome change makers to make our world a better place.

The team:

Amel zikikout, Designer, Tunisia, @**amel_zikikout_1**

Natalie, Entrepreneur, Jordan, @**Natalie_44**

Edgeryders was an opportunity for me to get mentorship and to make a better vision of my project.
