

HORIZON EUROPE CALL FOR PARTNERSHIPS in 2021.

WHY EDGERYDERS IN YOUR CONSORTIUM?

We are a not-for-profit community-driven research institute. We are incorporated as an Estonian private limited company; maintain offices in Brussels and Stockholm; and operate globally. We use **unique community-building tools and research techniques to detect and enhance citizen innovation**, in response to key societal, economic, ecological and political challenges.

We aspire to bring the citizenry's collective intelligence to contribute to a more grounded public policy. Over the years, we have engaged and connected many individuals in an online forum with about 6,000 registered user and 70,000 posts. Besides their scientific output, **our research projects tend to bring about real-world impact, as they inspire initiatives by the respective communities**. We are especially interested in regional economic development, citizen engagement, participatory culture, citizen science, transitions to a low-carbon economy, social innovation and societal resilience.

HORIZON EUROPE CALLS OF INTEREST:

We are **looking for a consortium to join**. Below are the main calls of interest for us at the moment (the list is subject to updates), but we are also open to consider proposals for other calls excluded from this list if our input could be of value.

Our preferred method for collaboration is **transparent and participatory**. We have developed what we believe to be exceptionally good practice in research ethics, data protection and openness of results. No less important, we are a solid, experienced team, collaborative and loyal in service to its projects.

If you are working on a project idea, send us your concept note and we will get back to you shortly with an outline on how we see our role and how we can strengthen the proposal.
