**Organization name:** MOK3B

**Venue:** Egypt, Ismailia, Mok3b co-working space

Mok3b focuses on three categories that we think it's essential to the enrichment of our local community: small businesses and startups, student activities and non-governmental organizations. We allow our visitors who are engaged in such activities to come and work on projects. "mok3b" is a friendly place where people can mingle and expand their professional network.

Additionally, "mok3b" provide individuals and organizations them with a comforting space, allowing them to work efficiently on their projects without going through the hassle of finding an office space. The co-working space also works hand-in-hand with NGOs towards the enrichment of our local community through cultural events and community-mobilizing movements for social causes.
